Optics & Laser Technology

Index to Volume 27 (1995)

No 1 (February) pp 1–74 + xiv
No 2 (April) pp 75–138 + xvi
No 3 (June) pp 139–204 + xiv
No 4 (August) pp 205–278 + xiv
No 5 (October) pp 279–350 + xvi
No 6 (December) pp 351–414 + xvi

Article index

Number 1

Special Issue–Laser Safety

Safe laser application requires more than laser safety
A. Frevel, B. Steffensen, L. Vassie 1

Extended sources—concepts and potential hazards
E. Sutter 5

Quantitative risk assessment—a place in laser safety?
R. Gardner, P. A. Smith 15

Safety aspects in the use of outdoor and surveying lasers
B. J. Gorham 19

Accident risks and the effect of performance feedback with industrial CO_2 lasers
H. Laitinen, T. Järvinen 25

Fumes generated during laser processing of polyvinyl chloride (PVC)
L. H. Vassie, R. J. Roach, J. R. Tyrer, B. L. Sharp 31

In vitro method for medical risk assessment of laser fumes
W. Malkusch, B. Rehn, J. Bruch 39

Articles

Vibration analysis and non-destructive testing with real time shearography
C. W. Sim, F. S. Chau, S. L. Toh 45

Time-average shearography in vibration analysis
S. L. Toh, C. J. Tay, H. M. Shang, Q. Y. Lin 51

Evaluation of residual deformations generated by a pulsed ion implanter using interferometric phase measurement
G. H. Kaufmann, S. P. Brühl, G. E. Galizzi, J. N. Feugeas 57

Detection of radiation deformation in crystalline polymers using the speckle photography technique
H. El-Ghandoor, A. A. Hashem, F. Sharaf 65

Characterization of laser cleaning of limestone
M. I. Cooper, D. C. Emmony, J. Larson 69

Number 2

A trinocular vision system for close-range position sensing
S. Kurada, G. W. Rankin, K. Sridhar 75

Diffraction model of an optoelectronic displacement measuring transducer
L. Wronkowski 81

Study on the measurement of in-plane displacement of solid surfaces by laser Doppler velocimetry
Bin Li, Jing-Wen Liang, Chun-Yong Yin 89

Photoelastic effects in Nd:YAG rod and slab lasers
Q. Lü, U. Wittrock, S. Dong 95

A method for the determination of three-dimensional velocity fields from holographic images
P. De Natale, P. Ferraro, G. Pierattini 103

Determination of the optical phase function of Ag and Mn films
W. Osman, M. El Bahrawi, F. Abd-El Aziz 107

Modal approach to waveguide coupling when gaps, offsets and rotations of one waveguide with respect to the other are present
R. C. Gauthier 113

The geometric forms of the equations for reflectance and transmittance for radiation incident on very thin films
L. Ward 125

Gain and saturation intensity parameters in a transverse-flow CO_2 laser
G. Rabczuk, P. Kukiello, G. Sliwinski 131

Research note

Q-switched operation of a Nd:SGGM laser
V. Kushawaha, A. Michael 137

Number 3

A carrier method of speckle-shearing interferometry of individual-component patterns of in-plane strain
J. Fang, K. H. Laermann 139

Semi-automatic phase shift calibration using digital speckle pattern interferometry
K. Jambunathan, L. S. Wang, B. N. Dobbins, S. P. He 145

Dynamic photoelasticity using a laser scanner
A. Asundi, M. R. Sajan 153

New keratoscope optical system
A. V. Laskin, D. T. Puryayev 157

Synchronization of ultraviolet-preionization in a Marx-driven TEA CO_2 laser
T. Y. Tou, W. S. Seow, W. O. Siew, K. S. Low 163

Experimental characterization of RF-discharged open slab CO_2 lasers
A. Lapucci, F. Rossetti 167

Oxygen assisted laser cutting mechanism—a laminar boundary layer approach including the combustion process
B. S. Yilbas, A. Z. Sahin 175

Ablative etching of nitrocellulose with infra-red and ultra-violet laser radiation
C. D. Skordoulis, M. I. Makropoulou, A. A. Serafetinides 185

Deep penetration welding using a CO laser with an unstable resonator
M. Schellhorn, H. v. Bülow 191

Research notes

Investigation of holographic AgBr-films: optical density, Ag-concentration and index of refraction
J. Eichler, G. K. Ackermann, S. D. de Magalhães, O. D. Gonçalves, P. Rizzo 195

Quantization of surface rust by using laser imaging techniques
B. Koyuncu, A. Yasin, A. Abu-Rezq 199

Number 4

Special issue—Optics and Image Processing in Russia

Editorial
V. A. Soifer 205

Article Index

(Continued)

Comparative analysis of different focusators focusing into a segment
L. L. Doskolovich, N. L. Kazanskiy, V. A. Soifer 207

The technology of fabricating focusators of infrared laser radiation
M. A. Golub, O. E. Rybakov, G. V. Usplenjev, A. V. Volkov, S. G. Volotovsky 215

A method for estimating the DOE's energy efficiency
L. L. Doskolovich, N. L. Kazanskiy, S. I. Kharitonov, A. Ye. Tzaregorodtzev 219

Phase coding in iterative synthesis of computer-generated holograms.
M. A. Golub, V. S. Pavelyev 223

Phase diffractive elements forming pregiven phase distributions
V. V. Kotlyar, S. V. Philippov 229

Phase optical elements for widening a minimum diffraction spot
V. V. Kotlyar, S. N. Khonina, V. A. Soifer 235

Detection of objects on the image using a sliding window mode
N. I. Glumov, E. I. Kolomiyetz, V. V. Sergeyev 241

Noise-insensitive iterative method for interferogram processing
V. V. Kotlyar, P. G. Seraphimovich, O. K. Zalyalov 251

Methods for analysing the images of blood preparations
S. E. Volkova, N. Yu. Ilyasova, A. V. Ustinov, A. G. Khramov 253

Articles

Imaging through scattering media using characteristics of the temporal distribution of transmitted laser pulses
J. C. Hebden 263

Measurement of changes in optical pathlength through human muscle during cuff occlusion on the arm
A. Duncan, T. L. Whitlock, M. Cope, D. T. Delpy 269

Technical note

Mode locking of fibre ring lasers with a coherent-phase relationship among axial mode groups
B. P. Singh, T. Tazaki, K. Ieda, M. Mori, T. Goto, A. Miyauchi 275

Number 5

Risk assessment and laser safety
D. H. Sliney 279

Silver halide sensitized gelatin as a holographic recording material
A. Fimia, I. Pascual, A. Beléndez 285

Study of the influence of processing baths on the modulation profile of volume holographic gratings
S. Mechahougui, D. Gesbert, P. Meyrueis 293

A TE-TE N_2 oscillator-amplifier with a two-stage cascade discharge
Y. K. Yap, T. Y. Tou, K. S. Low 299

Laser superconductor interaction: determination using AC loss measurement
K. K. Das, K. N. Mirchandani, B. Kumar 303

Acousto-optical modulation of radiation with arbitrary polarization direction
V. B. Voloshinov, V. Ya Molchanov 307

Hybrid lens with corrected sphero-chromatic aberration
B. Dubik, S. Koth, J. Nowak, M. Zajac 315

Interpretation of the Faust equation for a conventional refracting prism
R. D. Tewari, A. M. Ghodgaonkar, V. D. Gokhale 321

Design of concentric ring bi-detectors to obtain directly the curve of frequency discrimination
Huang Mao-Quan, Zhang Kuan-Shou, Zheng Jing-Ling, Lian Yi-Min 327

A fractal surface and its measurement by computer simulation
Shi Wei Min, S. P. Lim, K. S. Lee 331

Frequency dependence of the phase shift in optical-fibre thermal modulators
J. B. Brown, J. D. C. Jones, S. J. Rogers, R. K. Y. Chan, H. H. Wong 335

A technique for removing platform vibration noise from a pulsed ladar vibration sensor
T. A. Sturm, R. Richmond, B. D. Duncan 343

Number 6

In-process sensor for surface profile measurement applying a common-mode rejection technique
T. Dawei 351

Roughness determination by direct visual observation of the speckle pattern
M. A. Rebollo, M. R. Landau, E. N. Hogert, N. G. Gaggioli, M. Muramatsu 355

Computer-based spatial-temporal interferometry
H. Rehn, R. Kowarschik 357

Performance of joint transform correlation under varying illumination and noise
M. S. Alam 361

Aberration analysis and elimination in image reconstruction from X-ray holograms
J. W. Chen, Z. Z. Xu, T. Q. Xiao, P. P. Zhu, L. G. Kou, Z. J. Wang 369

Investigation of contact lithography in the 5–20 nm region with a laser plasma source
Y. Guo 375

Role of metastable states in circumventing laser pulse jitters in multi-step laser excitation experiments
M. A. Khan, M. A. Gondal, M. H. Rais 379

Design of the bandpass width, the spectral resolution and the diffraction efficiency of a non-collinear acousto-optic tunable filter of TeO_2
G. Georgiev, L. Konstantinov 383

Transmission of 1.6 J Er:YAG laser light by ZnS-coated silver hollow waveguides
T. Watanabe, M. Miyagi, S. Schrunder, T. Ertl, G. Müller, L. Beerstecher 389

Fabrication of fluorocarbon polymer-coated silver hollow-glass waveguides for the infrared by the liquid-phase coating method.
M. Osawa, Y. Kato, T. Watanabe, M. Miyagi, S. Abe, M. Aizawa, S. Onodera 393

Research notes

Laser welding in a high pressure gas environment
G. J. Shannon, J. Watson, W. F. Deans 397

A rate equation of the laser that reflects the coherence of light
L. Zong-Cheng 399

Chromium doped forsterite ring laser
H. B. Ahmad, I. T. McKinnie 403

Technical note

IC-excited strontium recombination laser
N. K. Vuchkov, D. N. Astadjov 407
